

## Tissue Paper Flowers

### Supplies:

- 1 stem/pipe cleaners
- 1 sheet of construction paper
- 4-8 sheets colored tissue paper
- Scissors

1. Stack 4-8 layers of tissue paper neatly in front of you.
2. Starting at the short end, accordion fold 1 inch sections of the tissue paper until the whole length of the tissue paper is folded together.
3. Loop the pipe cleaner around the middle of the folded tissue paper to secure the center.
4. Take your scissors and trim both ends of the stacked tissue paper strip so that you have a rounded edge. This will give your flower a rounded appearance.
5. Fan out the folds and begin separating each layer. Fluff and shape the flower until it looks pretty.
6. Using the construction paper, draw and cut leaves. Glue your leaves to the pipe cleaner.
