

Plant Your Own Vegetable

Supplies:

- ✓ Vegetable seeds of your choice
- ✓ Flowerpot
- ✓ Potting Soil
- ✓ Small shovel
- ✓ Water

1. Fill the flowerpot with potting soil.
2. Dig a few deep holes in the soil. Make sure they are wide enough to hold the roots of your Vegetable seeds. Place the seeds in the holes. Pat the dirt down gently.
3. Water the seeds after planting. Place the flowerpot in a sunny spot or near a window.
4. Water the seeds every other day or when the soil is dry.
5. When your vegetable has grown, share it with your family and friends.
